

DRIVING RANGE

The driving range is adjacent to the motorway A28. By using the driving range, every user agrees to the following safety rules.

The maximum length that can be used is 200 metres.

Anywhere on the entire driving range all strokes must be directed towards the 250 metre sign, regardless of the position and direction of the practice bays.

Only from the far right side of the driving range near the practice green, a few marked bays can be used for a maximum distance of 250 meters.

Every user must ensure that no balls land on or over the long mound of earth along the back of the driving range, even if it's by accident.

Each user is personally liable and responsible when causing any situation and/or (major) incident using the driving range and practice facilities.

On competition days, the use of certain clubs on the driving range may be prohibited. This will be mentioned in the competition conditions and/or indicated on the driving range. Violation of such a ban irrevocably leads to disqualification.
